DWI / DUI INTERVENTION

PROVIDING QUALITY SERVICES

The mission of CARE Consultant, LLC is to compassionately empower and strengthen positive and productive values within individuals, families, returning citizens and communities by collectively addressing life challenges through intervention, prevention, education, resources and other services.

CARE systemically links individuals, families, returning citizens and communities with available resources that serve to enhance the quality of life and equip clients with the tools needed. CARE provides effective programs and services to support those recovering from addictions. We treat our clients with dignity and respect while helping them successfully reintegrate into society.

VISION

Our vision is to be the premier agency in the community helping chemically dependent individuals to change their lives by learning the tools of recovery and maintaining abstinence from mind-altering substances.

PHILOSOPHY

Our philosophy is early diagnosis, prevention, intervention education, and treatment. We are driven to assist our clients with developing the tools, and strategies to provide a foundation for living life to the fullest. The cycle of addiction can be broken and a productive and healthy life is obtainable.
